ROSBACH MINERAL WATER
equal to Apollinaris)
IN CASES OF 50 BOTTLES
WOOLLEY AND CO.

No. 9030 BUENOS AYRES, SUNDAY, OCTOBER 9, 1892 XXXII YEAR

To any one wishing to see some fine specimens of North American Oak worked into attractive and servicable furniture, we would suggest their calling at the Store No. 656 Calle Cangallo, where we have just received from our factory on Calle Santa Fé, new designs in bedroom suites, double and single door wardrobes and fancy card and tea tables, all hard polished, and showing to advantage the grain of the wood; also new designs in maple and walnut beds—single, three-quarters, and double; and all at very low prices.

Also many different patterns of attractive oak chairs, and all of them exceedingly comfortable. We will soon receive a large line of fancy wall cabinets, English wardrobes, and other attractive articles of furniture, all entirely new in design.

The large assortment of folding beds have found a ready sale to those having a limited amount of room at their disposal and desiring to make the most of it.—**Edgar T. Ely**, 656 Calle Cangallo.

SUNDAY OCTOBER 9, 1892

TELEGRAMS
TO
STANDARD.

By direct cables via Lisbon.

Paris, 8th—The intended military reforms in Germany preoccupy attention in French military circles; and it is stated that the War Office contemplates reforms that will necessitate an application to Parliament for large extra credits in the next Session.

St. Petersburg, 8th—The *Weidemosti* says that the relations between Russia and Turkey are becoming daily more strained, owing to the latter's friendly attitude towards Bulgaria and Prince Ferdinand.

Vienna, 8th—The differences between Austria and Italy about the wine and oil clauses in the commercial treaty are about to be definitely settled.

Government is disposed to waive the chemical analysis of Italian wines, in spite of some resistance by the Austrian and Hungarian growers, as it wishes to preserve its friendly relations with Italy.

Rome, 8th—Contrary to expectations, the Catholics will not take part in the elections to the new Parliament, but will remain aloof, as desired by the Pope.

Vienna, 8th—Advices from Belgrade report the internal political situation in Servia as very serious, and the struggle between Liberals and Radicals getting more bitter.

The charges made by the new Avakounvitch Cabinet against the fallen Radical Cabinet cause protests, and a serious conflict is feared, especially as the time for the elections in December draws near.

London, 8th—A Columbian Banquet will be given here on the 12th by the Ibero-American Society.

New York, 8th—The whole of next week will be devoted to the Columbus fetes.

The city has been profusely decorated with triumphal arches, flags and flowers.

The Presidential campaign is forgotten.

The Exhibition Buildings in Chicago will also be inaugurated next week with fetes at which President Harrison will probably assist.

Huelva, 8th—The Americanist Congress was opened yesterday in the Rabida Convent by Canovas del Castillo with a brilliant speech in which he gave prominence to the bonds that united Americans and Spaniards.

The Peruvian writer Palma answered eloquently the compliments paid to Americans by the Bishop of Badajos.

All the speeches were greatly applauded.

The delegates rose and cheered for Spain as the Congress was declared open.

Buda-Pesth, 8th—The epidemic is spreading in consequence of the indolence and neglect of the authorities.

Business is at a complete stand-still, and the city depopulated by the flight of thousands of its inhabitants. If energetic measures be not adopted the epidemic will ravage the city, owing to its bad sanitary state and the dirt of the Jewish quarters.

St. Petersburg, 8th—Valuable silver veins have been discovered at Oravat, in Finland.

A scientific Commission will go to examine the new mines.

Paris, 8th—Serious news comes from Tonkin. The continual increase of piracy on the Chinese frontier puts the French garrisons in danger.

(Per Havas Agency.)

Paris, 8th—President Carnot left this morning for Lille to attend the fetes in commemoration of its heroic resistance of the Austrians, who had to raise the siege.

Madrid, 8th—The King and Queen Regent left to-day for Seville, en route for Huelva, for the Columbus fetes. They are expected there on Tuesday.

Huelva, 8th—The Americanist Congress was opened last night.

Premier Canovas del Castillo made a brilliant speech and announced that the Queen Regent would preside at the last sitting of the Congress.

Marseilles, 8th (evening)—Some suspicious cases have occurred here; and the patients have died.

Although they are not thought to have been cholera, rigorous precautions have been adopted.

(To the "Prensa".)

Berlin, 7th.—The appointment of Colonel Mossner, by the Emperor, as one of His Majesty's aides-de-camp has caused great excitement in military circles, as the Colonel is a Jew. In making the appointment the Emperor declared that he wished to show clearly what he thought of the recent attacks made on Hebrews in Germany.

The *Vorwartz*, organ of the Socialists, calls on them to protest against the action of the Congress in Marseilles, in opposing the eight hours movement in England.

Caprivi has sent a circular to all the German States, urging them to take precautions against cholera.

Caprivi has written to the Emperor, threatening to resign, unless Dr. Kayser be allowed to defend him against the malevolent attacks of his enemies.

Gibraltar, 7th.—The British men-of-war Australia and Phaeton have left for Huelva. Also the U.S. cruiser Bennington, with the caravels Pinta and Niña in tow.

New York, 7th.—Argentine Bonds fell yesterday in London, but Brazilian and Chilian rose.

Rome, 7th.—The secret agents of the Vatican continue to negotiate with the Italian Government in reference to the pilgrims expected at the Pope's Jubilee. The Pope insists on a categorical pledge that the Italian Government will preserve order. The evasive answers of the Government confirm the belief of the Vatican that the Government is anxious that disorder should occur.

Hamburg, 7th.—The Senate has not yet answered the serious charge of the U. S. Vice-Consul as to its having given clean bills of health to vessels for North America after the outbreak of cholera had been officially declared. At a meeting of citizens Dr. Oleschen declared that, if what Consul Burke stated was true, it was nothing short of a public crime.

The epidemic is still declining.

EDUCATION AND WORSHIP.

MINISTERIAL REPORT FOR 1891.

This colossal blue-book consists of 2,310 pages in three octavo volumes. It is perhaps the largest Ministerial report ever published in the world, and like Krupp's new cannon may be sent to the Chicago Exhibition, to challenge admiration of mankind. One printing-office (the S. A. Bank note Co.) was unequal to the task of printing it, and hence the third volume had to be given to another establishment.

It contains, however, so much valuable information, interspersed with wise comments by the Minister, Dr. Balestra, that it almost repays us the labor of reviewing. The total number of children and youths receiving education is 305,700, that is about 7 per cent of the population of the Republic, as compared with 12 per cent in G. Britain and 13 per cent in the U. States. The number of children of school age is about 720,000, from which it appears that more than half are growing up in the grossest ignorance.

The Minister considers that the present system of superior education entails a great waste of public money. No fewer than 5,000 youths are educated in the Nat. Colleges and Universities free of charge, whose parents could very well pay for them, and most of these young men are merely wasting time, as they come to nothing. He says:—"Half of the students who graduate in the Universities of Buenos Ayres and Cordoba have no vocation, no perseverance: they are sent by their parents to occupy a bench in the classes, to the exclusion of better youths. Thus it happens in Buenos Ayres, from the records of 6 years, that of 100 youths who matriculated only 44 finished their course." The University students follow three branches of study, viz:—

	Per cent
Law	35
Medicine	49
Science etc.	16
	100

It is to be regretted that a larger number of students do not choose the profession of medicine, as the supply of physicians appears to be very short. There are at present 479 European physicians, of whom 313 have obtained diplomas from B. Ayres, and 166 from Cordoba.

The Minister is of opinion that the Universities of Buenos Ayres and Cordoba, with their 74 professors, might be made much more efficient in turning out physicians if the boys and young men sent there were of a working stamp.

But, when we come to consider the National Colleges the state of affairs is still more deplorable. There are 14 of these colleges, giving free board, lodging and education to 2,900 boys gratis, whose parents are flourishing people. The course is one of 5 years, but of 1,449 boys who matriculated in 1886 there were only 428 who completed their course in 1891, say 30 per cent. In other words 70 per cent of those who enter endeavor to pick up some post under Government. The colleges are a heavy charge on the National Exchequer, and the results obtained are inadequate.

Dr. Balestra goes on to say:—

"In a young country like this, where habits of industry and labor are most to be inculcated, where every man ought to earn his bread by the sweat of his brow, these Nat. Colleges are turned to bad account, by making little boys believe that a doctor's cap is the one worthy object of ambition."

"These boys are in fact taught that it is better to understand protoplasms and the vulcanization of rocks than the best systems of agriculture or how to improve the breeds of sheep and cattle."

The sooner, therefore, that all these National Colleges are abolished the better, and in their place the Minister proposes to sow broadcast through the Republic schools where large numbers of boys would be admitted as boarders at a charge of 10$ a month, and which would be but a slight charge on the Treasury.

These schools would be of three kinds.

1st.—Commercial, for teaching book-keeping, geography and modern languages, but no philosophy, metaphysics, ethics, jurisprudence or profound science.

2nd.—Agricultural, where the boys would learn practical farming, how to handle a plough or threshing-machine, and wear a peasant's blouse instead of a handsome uniform. In this way a generation of lads would grow up with a taste for farming in all its branches, pastoral and tillage.

3rd.—Schools for trades, such as carpenters, builders, engineers, mechanics, book-binders, cabinet-makers &c.

Such is in brief the reform that Dr. Balestra proposes, and which public opinion will emphatically applaud. He condemns the free system of the National Colleges, and proposes, as we have said, a uniform charge of $10 a month for board, lodging and education. In this way 30,000 boys might be trained up as useful citizens.

Among the existing institutions is a School of Mines at San Juan, with 9 students. Mining may be a delightful study, and so, we believe, is Arabic or Hebrew, but we cannot see the utility of a college with 9 students. Dr. Balestra mentions an anecdote about this School of Mines: there was a class consisting of one student, and the latter refused to attend unless the professor gave him a portion of his salary; the professor accepted the terms, and thus managed to keep his class going.

Turning to matters of another kind the Minister points out the necessity of a national institute for Deaf and Dumb, or as they are technically termed Deaf-mutes. For what cause, of climate, soil or pedigree, we know not, but the fact stands that deaf-mutes in this city are 6 times as numerous as in Europe. It may be from intermarriage of uncles and nieces and other close consanguinity that would be regarded with horror in England. Or it may be the result of climate.

Taking the census of 1869 we see that deaf-mutes are much more numerous in mountainous than in level provinces, just as we find in Europe that Switzerland has four times as many as England, France or Germany. The average in Europe is about 65 in 100,000 inhabitants, whereas it is 350 in the Argentine Republic. According to the Argentine census of 1869 the several provinces shewed thus:—

	Deaf-mutes.	Per 100,000 pop.
B. Ayres	544	109
Santa Fé	152	168
Entre Rios	114	86
Corrientes	237	182
Cordoba	626	297
San Luis	269	501
Salta	1,143	1,270
Santiago	221	166
Mendoza	846	1,283
San Juan	210	350
Rioja	337	680
Catamarca	283	352
Tucuman	535	490
Jujuy	786	1,965

Thus it appears that this melancholy affliction is worst in the mountainous provinces of Jujuy, Mendoza and Salta, where the ratio is very much greater than in any other part of the world, viz:—

	Per 100,000 pop.
England	58
France	62
Italy	73
Ireland	82
Sweden	118
Austria	135
Switzerland	245
B. Ayres	109
Jujuy	1,965

Dr. Balestra estimates that, as the population of the republic has doubled since 1869, the actual number of deaf-mutes will be close on 14,000. A few years ago the late Mr. Thomas Drysdale offered a donation of £10,000 if the Government would establish a Deaf-mute Institute, but his generous offer was allowed to pass unheeded. The venerable Canon Balestra, whose name was a household word in Europe for teaching Deaf-mutes, came here from Rome about the same time, and suffered so much annoyance that he died soon after, we believe of a broken heart.

The time has now arrived, as the Minister, Dr. Balestra, says, to make some effort on behalf of these afflicted persons. This is the only country in the world that has no institution of the kind.

We have not room to day to follow the Minister in his valuable, though voluminous report. But we cordially congratulate him on his proposal to abolish the Nat. Colleges, and to put the plan of education on a better footing.

THE SHIPPING TRAFFIC.

It is interesting to compare the aggregate nominal tonnage of the flags of all nations with the tonnage of port-entries in the whole world, at given dates, viz—

Year	Shipping	Port entries
	tons.	tons.
1860	16,600,000	64,115,000
1870	15,900,000	95,430,000
1880	20,300,000	166,290,000
1890	22,100,000	222,400,000

It would appear that each vessel made 10 voyages in 1890, as compared with 4 in 1860, which is explained by the greater proportion of steamers in late years, one steamer having four times the carrying-power of a sailing-vessel of same tonnage.

The following table shews the carrying-power and the proportion of steam tonnage at the above dates:—

Year	Carrying power	Steam
	tons.	ratio.
1860	21,700,000	10 p.c.
1870	25,100,000	19 ,,
1880	37,900,000	29 ,,
1890	51,800,000	45 ,,

It is pretty evident that the days of sailing-vessels are numbered, and that the increase of steamers must go on from year to year. Although at present the tonnage of steam-boats is only 45 per cent of the total, the bulk of the carrying-trade is done by them, viz—

Year	Tons merchandize carried by steamer	Tons merchandize carried by sail.-vessel
1860	20,100,000	44,015,000
1870	46,700,000	48,700,000
1880	102,300,000	64,000,000
1890	168,700,000	53,700,000

Thirty years ago steamers carried less than one-third of sea-borne merchandise, whereas to-day they carry more than three-fourths. The use of steamers has, moreover, led to such economy in matters of freight that the volume of merchandise has grown prodigiously, being now (as shewn in the first table) 3½ times as much as in 1860, whereas shipping has only risen 33 per cent in nominal tonnage.

The total of sea-borne merchandise in 1890 was consumed by the following nations:—

Nations	Tons	Cwts. per inhabitant
U. Kingdom	37,600,000	20
France	15,700,000	8
Germany	14,200,000	6
Russia	7,400,000	2
Italy	7,200,000	5
Other countries	65,900,000	—
Europe	148,000,000	8
U. States	15,400,000	5
Brit. Colonies	42,000,000	—
Various	17,000,000	—
Total	222,400,000	—

Ships of the British flag carried about 112,000,000 tons of merchandise in 1890, that is three times as much as the weight of goods received in ports of the United Kingdom.

PROVINCIAL NEWS.

In reference to the highly peaceful and exemplary transfer of the reins of power in the distant province of Santiago del Estero, a telegram received yesterday states that the sovereign people, represented by two hundred citizens mostly brought from the country districts, solemnly contemplated the ceremony, while a picquet of troops in front of the Government House went through some evolutions bespeaking at least agility and good will. The new Governor made a speech which was not all a speech. He said that he could not better express his intentions and programme than by referring his hearers to his public and private history, already published in daily chapters by the local press. The Santiagueños are convinced that the new Governor is going to rule with an iron hand, which means no doubt that some unpleasant sleep-dispelling excitement is in store for them, for the iron system of government invariably creates political animosity. H. E. the new Governor has expressed his conviction that his party represents the overwhelming majority of the peaceful, progressive, and hardworking citizens of the province The opposition has taken refuge in the press, which is a fire-eating opponent of the new Governor and his party, and is in a flourishing condition. So that we may infer there is some inaccuracy somewhere. We note, moreover, that the newly-fledged government has begun to take extraordinary military precautions.

The municipal row in Rosario is at white-heat point, and the exasperated corporators have decided to appeal to the National Government for State intervention. Dr. Olegado Machado has been commissioned by them to present the application to the President of the Republic. It appears that the pivot of the whole row is that the local Government manifest no respect whatever for the corporation. The honourable corporators prefer abuse to want of respect, and their indignation is tremendous. We suspect there is something of politics at the bottom of the row.

Our distinguished and learned Cordoba contemporaries contain a complete denial by Governor Pizarro of the imprudent statement he was supposed to have made at a banquet, when in an eloquent address to the golden Cordobese youth, whose erudition is perhaps only equalled by their enthusiasm in shooting-practice, he was stated to have advised them to keep their powder dry until they crossed the Andes. As a rule, if an imprudent statement is to be made it is generally at a banquet table that it comes out. However, not only did H. E. not make this statement, but he never dreamed of such a thing. He did not mention Chile nor even allude to San Martin. H.E. delivered a learned discourse on the compatibility of a shooting club with the institutions of the day, a profound and interesting subject, and we suppose that the reporter who made out the account of the affair fell asleep during the feed and had recourse to his imagination to fill up H.E.'s speech.

A telegram received last evening from Mendoza states that Mr. John Clark, the railway contractor, has begun to pay the navvies of the Transandine. The local Government, however, have deemed it prudent to send a detachment of soldiers to Rio Blanco, as it is rumoured that the navvies have destroyed a bridge to prevent Mr. Clark passing over to Chile.

LATEST FROM MONTEVIDEO.

Saturday Evening

The question of the separation of the Mortgage Bank from the National Bank will be brought before the Legislature for full explanation. A Bill for that purpose will be submitted to the Chambers by the Government on Monday next. The Government maintain that this separation could not have been made with a view to cancel the guarantees affected by the Brazilian Loan. In the meantime the Banco Popular of Brazil, which negotiated the loan, has applied to the courts to oblige the Mortgage Bank to deposit the money it receives as service.

The rumours about the loan are assuming a more favourable tone, and the friends of President Herrera say that the negotiations are progressing satisfactorily. The public offices are to be closed during the Columbus fétes.

RUSSIA AND AFGHANISTAN.

According to advices received at Bombay from Afghanistan the Ameer Abdurrahman is prepared to resist by force any Russian action in Shignan and Roshan, although he has declared his readiness in the first instance to abide by the action of the British Government to prevent further aggression of Russians. The Ameer has circulated the news of the proposed British mission throughout Central and Eastern Afghanistan, as he believes that this will strengthen his hands aginst the rebels and keep other tribes from joining them.

The Ameer has not actually applied for help from the Indian Government against the Russians, although he resents strongly the shooting of his soldiers in such a summary fashion as at Somatash. He practically says that his external affairs are in the hands of the British Government, and he asks what course he shall pursue, as he cannot endure a continuation of such hostile action. He has not asked Great Britain to fight Russia, but he naturally expects that a civilized European Power shall behave less like a Turcoman robber.

An answer has been sent to the Ameer's letter regarding the proposed mission of Sir F. Roberts. The Indian Government regrets to hear that in consequence of the Hazara revolt he is unable to fix a precise date for receiving the mission, and the Government hopes that affairs will settle down. Wherever the Afghans are not imperilling the peace of the Indian border, the Government is willing, out of consideration for the Ameer, to let them remain in the positions they occupy for the present. In one place, however, the presence of his agents has had a most disturbing effect on the tribesmen. This refers to Waziristan, Gul Mahomed's occupation of Wana, to the west of that country, having been the direct cause of outrages in the Gomul and Zhob Valleys and of unrest among the Batanis. The Government states distinctly that this state of affairs cannot be allowed to continue, and the Ameer is called upon to withdraw his agents with their armed escort from Wana and the neighbourhood. He is told that this will be without prejudice to any claims he may have in that direction.

Upon the answer of the Ameer will depend the question whether Lord Roberts's mission will proced to Jellalabad. The necessity of a personal meeting with the Ameer is becoming more apparent daily, the Russian advance in the Pamirs having caused great excitement south of the Hindu Kush and in Cabul itself.

In view of the disturbances which have occurred in the Gomul Valley as the direct result of the presence among the Waziris of the Ameer's agents, the precautionary measure has been taken by the Government of India of warning troops to reinforce the detachments now on the spot and to occupy the whole length of the pass. This movement is contingent on the Ameer's line of action. If he recalls his agents in accordance with the request of the Indian Government, the occasion may not arise for military action; but the lawlessness lately shown in the Gomul Valley justifies a position being taken up commanding the adjacent country.

According to the *Cologne Gazette*, the Chinese Minister to the Courts of Germany and Russia, who has just gone to St. Petersburg, is instructed to demand from the Russian Government the immediate evacuation of the Pamir districts claimed by the Celestial Empire. The Chinese Government is informed that Colonel Yonoff has with him a force of 2,000 men, and that notwithstanding all statements to the contrary, he intends to winter on the Pamir.

In regard to the recent conflict between the Russians and the Afghans, it is stated in well-informed quarters in St. Petersburg that the Russian Ambassador in London has entered into an exchange of views with Lord Rosebery, which, it is confidently expected, will lead to satisfactory explanations.

The *Novoe Vremya*, which says that it has received its information from a trustworthy source, publishes the following statement regarding the collision between Russians and Afghans:—

The Russian force, which was under the command of Colonel Yonoff, consisted of only 19 Cossacks. The scene of the encounter, which is described as a a mere skirmish, was a spot called Somatash, in the neighbourhood of the Yeshil Kul. The statement that this place had for a long time been occupied by the Afghans is declared to be totally incorrect, as only a comparatively short time ago there was a Chinese outpost there, which, however, was afterwards driven off by the Ameer's forces. In support of this it is pointed out that when Colonel Yonoff visited the Alieher Pamir in 1891 he was able to fully convince himself by the entire absence of any traces of an Afghan occupation of that district, which, moreover, lay entirely without the sphere of Afghan rule. The journal states that the loss on the Russian side was three Cossacks wounded.

There is reason to believe that the account of the skirmish which is given above is a reproduction of the report received by the Russian Government from Colonel Yonoff himself, and that this report has been communicated to the British Government, with ample assurances that in despatching the expedition to the Pamirs the Russian Government had no thought of any aggressive action in respect of British interests. Stress is again laid on the fact that Colonel Yonoff is only leading an exploring expedition, the number of which has, it is positively declared, been greatly exaggerated.

The Ameer's troops have attacked the Hazaras in their position at Kamsin, carrying it with heavy loss. The Hazaras are reported to have gained some small advantages elsewhere.

The Governor of Farrah has been killed by Sanjarani tribesmen from Chageh.

The Shah of Persia, according to Candahar rumours, has sent an embassy to intercede for the Shiah Hazaras, but the Russians stopped the embassy at Penjdeh. This is a specimen of the stories current in Afghanistan. Had this incident occurred, it would have been heard of from Teheran.

Intelligence has reached Bombay that a Russian force has arrived at Langer Kisht, on the Oxus, not far from Kila Panj, the principal Afghan fort in Wakham.—*Times*.

NEW WORK FOR WATERFALLS.

The proposel to light Rome with electricity generated by the Falls of Tivoli has at last been carried into effect. The Roman of the nineteenth century is not a personage whose æstheticism will rebel at making use of the Anio Falls for creating electricity or anything else. Six turbines of 2,000 horse power have been erected, which are capable of driving dynamos generating currents ample not only for lighting up the streets and public buildings, but, at a small additional cost, admitting of being so increased as to provide illumination for private dwellings also. These currents are carried across the Campagna for fifteen miles and transformed into currents of lower pressure, at a loss, it is said, of only 20 per cent of the initial force. Already there are numerous electric railways, electric installation plants and the like, worked by waterfalls, and before long the power which, for millions of years, has been rolling into Lake Ontario will be be compelled to earn its livelihood by supplying electricity for many an American town. The problem has, in truth, been fully solved by the company which undertook to transmit power from Lauffen, on the Neckar, over 110 miles of wire to Frankfort.

This is, of course, more than seven times the distance over which the energy of the Anio is to be borne, while the turbines erected at the rapids of the Neckar have not more than a twentieth the power of those at Tivoli. Yet, at Frankfort, three of an inch in diameter, yield electricity enough to supply 10,000 glow lamps, or their equivalent, equal to a sixty-horse power motor, and an additional number of lamps. By means of special transformers at each end of the line the electrical pressure is raised to the amount, first, of 12,000 volts, then to 15,000, and, latter, to 30,000 volts, thereby enabling large powers to be conveyed through comparatively thin wires without the great loss in efficiency which would have occurred at a lower voltage.

After three months' trial it was found that the 113 horse power taken out of the Neckar was, at Frankfort, 110 miles away, still efficient, in spite of all possible sources of loss, to the amount of over 72 per cent. The American electricians promise to carry 1,000 horse power force from Niagara to the Chicago exhibition, and already electric transmission has supplanted rope transmission at Schaffhausen. It is, in short, evident that we are yet at the mere outset of this new departure in engineering, and that in the near future a waterfall may be a more valuable property than a old mine, and the grime and smoke and tall chimneys now characteristic of a manufacturing town will be unknown. It may be also that the tides which now idly fling themselves on the beach will be yoked to a turbine and dynamo in the service of humanity.—*Exchange*.

OCEAN VOYAGES.

Mr. Editor,

Allow me to correct a verbal inaccuracy in "Veritas's" statement that "the Speake frigate once crossed from America to Falmouth in seven days under bare poles".

There never was, nor is ever likely to be, a frigate of that name in H. B. M.'s navy. Ergo?

Yours nautically,
Beaupré.

EDITOR'S TABLE.

The blessed rain came down yesterday and put joy into the hearts and countenances of farmers and estancieros, who say that a three days' downpour, without wind or frost after it, is exactly what they want. We hope the Clerk of the Weather will oblige them.

A shocking rumour ran through town yesterday of bodies having been removed from their graves at the Recoleta, grave clothes and coffins stolen, and corpses pitched about anywhere. It was said that some naked corpses had been thrown into the vault of the Acevedo family. The whole thing was a "bola."

There will be a grand concert at Quilmes on Thursday next in behalf of the British Cemetery there. The programme could not be better, and lots of people from town who have no intention of being buried at Quilmes intend to go.

Tuesday will be the night for the Lomas $5 concert. If Paterfamalias can't go, let him send half his family, with mamma, and stay at home himself with the others.

A Sir Gordon Cumming business in one of the leading Clubs was spoken of yesterday, but it was arrranged before the word duel was mentioned.

There will be a practice game to-day on the Belgrano polo ground at 3 p. m. Mrs. Edye presides at the tea table.

That musical and literary food-providing establishment, the English Book Exchange has again received a lot of those much wanted North American Songfolios, (especially the famous No. 3).

We note that Mr. Thomas H. Eddy has been appointed Uruguayan Consul in New York. A good post with the right man in it.

A lot of promotions in the navy were amongst the last decrees signed by President Pellegrini yesterday.

Tickets for the Damas de Beneficencia Lottery, for re-sale, must be applied for to-morrow and Tuesday up to 5 p.m. at 33 Chacabuco.

The following are the arbitrators to settle the question between Government and the Pacific Railway: Senator Doncel for Government and Dr. L. Basavilbaso for the Company.

"Bon mot" uttered in our office yesterday by a subscriber: "Do you want to buy a watchdog? Yes, if you sell it on tick."

The Duchess of Berwick and Alba has sent President Pellegrini a present of her work "Autografos de Cristobal Colon." H.E. personally handed it over to the National Library.

The *Pall Mall Gazette* draws a parallel between Henry Dandolo, Doge of Venice, and Mr. Gladstone. The former, according to Gibbon, was "84 at his election, A.D., 1192, and 97 at his death, A.D. 1205." "He shone in the last period of human life as one of the most lustrous characters of the times."—*(Ibid. Text.)* The inference, of course, is that Mr. Gladstone might continue to take part in public affairs with advantage to himself and his country for the next 13 years.

The last number of the *Revue Illustre del Rio de la Plata* contains many splendid engravings and portraits, amongst the latter an excellent one of the Minister of Finance, Mr. Emilio Hansen, with a flattering biography regretting that he is so soon to leave office, and predicting a future brilliant career for him.

The Very Revd. Father Spoos, Provincial of the Redemptorists, Father Hellback and three other religious of the Order have arrived from Europe.

Old Lujan is getting young and going ahead. Mr. J. M. Wyatt O'Connor has everything ready to install the electric light there when the necessary Municipal formalities are gone through.

We are informed that the Liga Agraria, which is rapidly developing, thanks to the energy and activity of Messrs Carlos Guerrero, Baudrix, and others, has taken up the Bolivar affair and placed it in the hands of lawyers, with a view to ascertaining how far right the settlers were. One of the objects of the Liga Agraria is precisely to defend the interests of settlers in the province of B. Ayres.

The enterprising managers of The Creamery have just supplied another long-felt want. They have opened subscription, reading and writing-rooms, with lavatory and bathroom attached. The position is the most central in town, and they will be found a great convenience by visitors from the camp, and to officers of the Merchant Service.

Owing to the quarantine the R.MS. Tamar is undergoing, she has had to put off her sailing to the 15th inst.

In order to try the resistance of the conductors in the Argentine, Uruguayan and Brazilian Telegraphs, the Administrations of the lines have accepted Dr. C. Carles's suggestion that on the 12th inst. at 2 p.m., a conference take place between Jujuy (A.R.), Pará (Brazil) and Valparaiso (Chile)—a distance of eight thousand kilometers—the longest as yet attempted by wire. This will not only commemorate the anniversary of the discovery of America, but will be a manifestation of one of the greatest progresses of the present century in Columbus's World.

The following are our selections for the Races to-day at Belgrano:—

Premio Mercurio, Erato—Junio.
„ Venus, Iva—Whitethorn.
„ Primavera, R. le Diable—Calandria.
„ Marte, Salaam—Zampa.
„ Jupiter, Sta. Lucia—Puygaveau.
„ Saturno, Blackfriar—Sirince.
„ Urano, Remigia—Iva.

We got a sudden fit of the deep blues yesterday and sighed for our adopted country on learning that little Chile had launched another loan in London at 94, and exchange had risen in Valparaiso to 18⅞. Oh! dear, Oh! dear.

That banquet in Cordoba at which Governor Pizarro was supposed to have spoken disrespectfully of Chile must have been a trifle too jovial. It turns out that Dr. Pizarro said nothing about Chile. There were 15 speeches; and the reporter present mixed both his wine and the oratory, attributing to the Governor words which had been uttered by some young hot-head of the Tiro Nacional.

The cutting off the gas at the Government House by the Primitiva Company because the bill has not been paid is a disagreeable Parthian arrow shot at the departing Government. We heard yesterday, however, that the unpleasantness will be arranged before Wednesday next. It would never do to have the new Government taking over the cash, books, papers etc. etc. by the dim and dreary light of tallow candles. It would also give our London friends another fright in their pockets.

Lady Lena Scott, or Lena, Lady Scott, Earl Russell's mother-in-law, as she is variously called, who has just been declared bankrupt, attributes her financial misfortunes largely to the depreciation of South American securities during the Argentine crisis.

The following Bonds of the British Hospital Loan have been drawn for amortization: No. 1, 62, 67, 85. Now then; stand up lucky holders, whoever you are.

There is joy in the hard-up provinces of Cordoba, Mendoza and Corrientes. Each of them has obtained a $20,000 whack out of the Locusts Extinction money so foolishly voted by Congress.

Hurrah! Another long-felt want supplied. No more stolen unbrellas. A gentleman of Philadelphia has hit upon the expedient of putting a lock on his umbrella. He carries a very handsome gold-mounted one, which, when closed, is fastened by a tiny silver padlock. He tested the value of his invention the other day by putting his umbrella into a rack in a prominent hotel, and sitting down near by, apparently absorbed in a newspaper. Presently a man picked up the umbrella and went out. He returned, however, in a moment, put it down and took another. He could not open it. The same experience happened in quick succession with a dozen other people. No one would keep the umbrellas that would not open. Another ingenious American has patented an unstealable umbrella. It is made like the ordinary umbrella, except that the handle may be unscrewed and placed in the pocket. In the act of unscrewing it, however, the ribs are automatically locked together, and cannot be reopened until the handle is once more screwed in place.

The audacity of the swindling fraternity and imbecility of their victims become more stupendous daily. On Friday the widow of a Colonel in the army exchanged $20,000 worth of jewels for an old brick, through falling headlong into the "legado del tio" trap.

Mrs. Hay, wife of Mr. John Hay, one of the latest missionaries of the South American Missionary Society to the Paraguayan Chaco, embarked for South America in the R.M.S. Clyde on August 25. Mrs. Hay has had a surgical and medical training at Glasgow and she will doubtless prove a most valuable acquisition to the mission staff. Before leaving she was given a medicine chest and case of surgical instruments by Mr. T. H. Wakley, the editor of the *Lancet*. *European Mail*.

There will be great excitement in the Fronton Buenos Ayres to-day, as Paysandu and Chiquito are to play a match on which large sums have been staked. Play will begin at 1.30, the first match on the card being Zurdo de Abando and Lavaca against Melchor and Lasarte ("a cesta.") The "piece de resistance" of course will be the match (short glove) between Paysandu and Ezcurra and Chiquito de Eibar and Garmendia for $6000. Tickets are to be had at the Confiteria La Perla and the Fronton Office, Cordoba 1130.

A Dog Show has been added to the attractions to be offered at the Kermesse in the Plaza San Martin.

The Married Men's pic-nic at La Plata has been postponed till this day week. Their wives' dresses are not ready yet. This could n't happen at a Bachelors' pic-nic.

There was such a phenomenal row in the La Plata Chambers on Friday that at last one honourable member jumped on his chair and roared out amidst the terrific din: "For the honour of the Chamber, I move that it now adjourn." It did so, with a final yell.

The attendance of the polo members of the Quilmes Club is requested on the pavilion grounds to-morrow morning at 6.45 sharp, for a practice game. The cricket and tennis sub-committees have offered the use of the ground until further notice.

There will be a Tea and Concert on Tuesday next at the Buenos Ayres Band of Hope, Calle Santo Domingo 862, Barracas al Norte; tea commencing at 7 p. m. Entrance: 50 cents, children 30 cents.

Here's something from *Money* to raise the spirits of our railway and tramway friends. We rejoice to see a good word said for that deserving but much maligned public carrier, the Belgrano Tramway:—"Although the Argentine Republic is still in a fiscal "Slough of Despond," and may be expected to remain so long after the "moratorium" has expired, only few people now question the permanency of the commercial revival which has set in. From the railway companies we have had ample evidence of an encouraging character. Not only the leading systems, such as the Great Southern, Western, Central and Rosario, but also the minor enterprises testify to the more active and hopeful spirit abroad. Now it is the turn of the tramway companies to exhibit welcome progress, and if readers take our advice they will snap up Buenos Ayres and Belgrano shares at their present low price. A tramway which in a single month can increase its gold receipts by 25 per cent. is not to be despised, especially at a time when neighbouring ventures are equally showing superior results."

Sarah Bernhardt being asked by an interviewer whether she feared cholera, said she treated it with contempt because she felt sure there was no such malady. There might be an atmospheric state favouring its production in unhealthy people, but that was all. The cholera microbe seemed to her the most absurd child of the human imagination. She was willing to go to any cholera-stricken town to give a benefit in favour of the so-called victims of cholera.

A letter from London to the *Democracia* of Asuncion reports Paraguayan Bonds in Capel Court down to 17. The writer advocates the selling of the railway to a French rather than an English Company, and says that our London friends won't invest a cent more in Paraguay while the present Board of Directors of the company and their "amateur manager" retain control of the Company.

It costs something to live and a good deal to die; in fact, everything costs. Some one estimates that getting born costs the people in the United States $250,000,000 annually; getting married $350,000,000, and getting buried $75,000,000.

Something to keep up the spirits and sinews of our boating readers:—"It speaks well for boating as a healthy pastime that there are no less than four old Blues on the Bench now, Lord Esher, Chitty, Smith, and Denman. Chitty was captain of the boat and wicket-keeper of the "Varsity" eleven, a double first that none of his compeers ever attained. He worked the Baliol boat, too, up to the head of the river, and No. 6 in the crew was the present Speaker of the House of Commons."

A Cricket Match between the Buenos Ayres Western Railway Cricket Club and Lanus C. C. will take place to-day at Tolosa. Train at 9 a.m. from Plaza Constitucion or 10 from Central. The following are the Buenos Ayres Western Railway team:—C. P. Gates, J. T. Huxtable, A. W. Bannatyne, W. P. Schoppe, A. J. Avery, F. F. Dore, F. T. Parkes, P. Norman, H. Field, P. J. Baker (captain), F. Foster, —Clarke.

Church Services.

Passionist Fathers' Chapel, Calle Caridad.—Hours of Services on Sundays and Festivals—October 1st to April 1st, Mass at 5.30, 6.30, 8 and 9 a.m.; April 1st to Oct. 1st, Mass at 6.30, 7, 8 and 9 a.m. Week days, Sept. 1st to May 1st, Mass at 5.30, 6.30 and 7 a.m.; May 1st to Sept. 1st, Mass at 5.30, 6.30 and 7 a.m. *Rosary (Sermon on Sunday) and Benediction at 3 p.m. Confessions every day from sunrise to sunset. The Passionist Fathers attend sick-calls of English-speaking Catholics in all parts of the city and suburbs.

Young Mens Christian Association of B Aires, 521 Calle Cangallo (altos). The rooms of the Association are open every evening from 7.30 to 10.30 p.m. for visitors and strangers.

Here is racing extraordinary! It is not often that in an event of national importance the judge has to declare a tie between two horses for the first place, yet at the recent Cosmopolitan meeting, no less than *three* competitors were thus honoured, and as will be seen below, the curious part of it is that they all came from the same stable.

Popularity stakes; all ages. course unlimited.

Stud 'The English' Pyjama Suite...... †
do. do. General Underclothing.... †
do. do. Fancy Goods.. †

The above named three romped in easily. All others distanced.
We may add, by authority, that the winners are daily on view to an admiring public, at

THREE GOOD REASONS

Why Sheepmen everywhere should use

Alexander Robertson's

HIGHLAND SHEEP DIP.

Best Summer Protection for Sheep.
Cures Scab.
Exterminates Vermin.

First.—It is an honest preparation. I publish the formula of its composition openly. I make no attempt to trade on the credulity of my patrons, who, with the formula before them, can form a shrewd opinion of the efficiency of the "Dip" and its value in Cash. I range myself alongside the Farmer, and make his interests my own.

Second.—It is a reliable sheep dip. That it Kills Vermin goes without saying—any Sheep Dip worthy the name will do that; but the Highland Sheep Dip does more,—it has a continuous destructive effect on all insects hatched after Dipping, and largely prevents future contagion from infested sheep. The strongly adhesive nature of the Rosin and Grease, which are the most powerful Waterproofing materials possible to introduce into a sheep Dip, "fix" the Dip in the fleece, forming, when dry, a film capable of resisting moisture, on every individual fibre of the fleece, so that when the fleece has been soaked by rain the sheep easily frees itself from all superabundant moisture by a simple shake.

Third.—It is the most economical Dip. For $1.75 gold Makers of Powder Dips give about 10 lbs. of Powder. This quantity of Yellow Powder Sheep Dip contains 2 lb Arsenic, 2 lb. Soda, 6 lb. Sulphur. These Dips kill vermin certainly; but their use is disastrous to the farmer—the harsh, dry feel of the sheep's fleece shortly after being bathed in these Alkaline Dips arises from the fact that the wool has been Robbed of its Natural Grease, which the Soda has converted into Soap, which, in turn, is washed out by rain. The farmer suffers a corresponding loss in the weight of the Wool, and the Sheep, robbed of Nature's protection, is left defenceless against cold and rain.

Soluble Fluid Dips—whose name is legion, though their nature is one—have an average cost of $1.30 gold per gallon, and consist of tar Acid Oil (25o/o), 6 lbs. Soap, Soda and Water 4 lbs. These Dips have to be used at nearly double strength to kill vermin, even then they have no effect on the eggs; and, indeed, from the volatile nature of Tar Acids their effect can never be anything but temporary, no matter what strength they are used. The one thing in their favour is their free solubility in cold water, which is but a poor return for the need of greater frequency of Dipping, or the other alternative of flocks suffering from the effects of a temporary Dip.

The highland Sheep Dip contains in each 15 lbs. (1½ gallon), costing 1.75 gold 2 lbs. Arsenic, 6½ lbs. Tar Acid Oil (25o/o), 2 lbs. Carbolic Acid (95o/o) 4½ lbs. Rosin, Grease, etc., i.e., all the Arsenic in 10 lbs. Powder Dip, and all the Tar Acids in 2 gallons Fluid Dip, these insecticides being combined with materials of unrivalled Waterproofing Power.

No other Sheep Dip Maker in the world has ever put an equally serviceable preparation in the hands of Sheep Farmers, or has given an equal value in material for the price charged.

EXTRACT OF TOBACCO.

According to numerous testimonials which we hold the extract of pure tobacco is the only infalible remedy to radically cure the scab in sheep and naturally the cheapest. As there are several trade marks like ours care must be taken to see that the extract bears the key marks, without which it is not genuine.

Directions for use

One part of extract mixed with 100 to 150 parts of hot or cold water for bath, and with 80 to 100 parts for hand curing.

ARTHUR GEO. PRUDEN, Manager

ON 'CHANGE.

Saturday, September 8th 1892.

Gold continued dull and weak this morning, in spite of the weekly liquidation and its requirements. In fact, there was little to liquidate, as for the last eight days operators have been holding back in view of the daily and nightly alarms about impending disturbances. Thus, this morning's requirements were small and the speculation wore a dead-and-alive aspect. With regard to politics, there was a much calmer feeling and rumors were not so sensational as yesterday; the announcement that the ex-commander in-chief of the Santa Catalina division was thinking of resigning his command did not produce any effect upon the market, and all began to look upon the situation to day with more hopeful views, convinced that the transfer of Government next Wednesday will take place with the usual eclat and in the midst of order.

Fifteen thousand ounces changed hands at the first ring; the price opened at $53.30 rose to $53.40, and closed at $53.30, say 227.49% premium. Nothing was done in sovereigns. The speculation was desultory all morning and fluctuations did not exceed ten cents, the market closing at the same level as last night. But for the dread of disturbances before the 12th inst., the whole market would plunge into a bearish speculation; even in the midst of the present doubts and uncertanties, the market refuses to join any bullish campaign, preferring to wait for eventualities; people are now bears at heart and the bulls are few and far between.

There was a sudden outbreak of activity in Patriotic Bonds to-day and prices ruled much firmer. About half a million changed hands; the price for cash opened at 72.10 and closed at 72.30; the rate for the end of the month went up to 72.60, and for the end of November a large business was done at 72.80 and 73. Internal Bonds were weak and dull at 65; this stock is now seven points under the level of Patriotic Bonds. At these prices Internal stock gives a handsome interest.

Catalinas had another fainting fit this morning and closed top-heavy; the whole speculative fabric tottered to-day and holders were staggered to see the proportions of the degringolade. It is inferred that some bad news is kept under reserve, known only to a few. La Plata Cedulas were neglected, fluctuating between 29.90 and 29.80. A few National Cedulas D changed hands at 87 and of La Previsora at 27.

Exchange showed no material alteration this morning. An active business is expected next Monday, in view of the several large contracts for new wool. Discounts are easy at usual rates.

The following is a summary of the business effected in stocks and shares at the first ring to-day:—

Ounces—
For cash.. 14,821 at 53.30-40-30.
Patriotic Bonds—
For cash.. 201,000 at 72.10-20-30-
Oct. 30..... 30,000 at 72.40-50-60.
Nov. 30... 200,000 at 72.80-73.00.
Internal Bonds of 1892—
For cash.... 6,300 at 65.00.
Oct 30..... 10,000 at 65.00.
Catalinas Moles—
For cash.. 5,800 at 8.50-40-30-10 - 20.30.
Oct. 10.... 400 at 8.50-20.
Oct. 15.... 800 at 8.30-10-30-20.
Oct. 30..... 3,000 at 8.60-50-40-30 -
National Hypothecary Cedulas—
For cash..D 10,000 at 87.00.
La Previsora—
For cash.. 100 at 27.00.
Provincial Hypothecary Cedulas—
For cash..M 11,000 at 29.80.
For cash..N 3,000 at 29.80.
Oct. 30....N 50,000 at 29.90.

A small lot of new wool, cross Lincoln quality, from Chascomus, arrived at the South Plaza this morning consigned to Mr. Ortiz. A German firm bought the lot at the rate of $9.80 m/n per 10 kilos. Messrs Azarragaray and Company sold another lot of new cross Lincoln wool from Villa Nueva, on the Southern Railway, at $9.75 per 1o kilos.

Don Gregorio Soler has sold his large lot of wool from his Sauce Corto estancias at $6.25 m/n per 10 kilos "al barrer," delivered on the estancia. The buyer of this large lot is a German house connected with the North of France.

The arrivals of "epidemia" ox hides in the Plaza Constitucion are very heavy; prices are weak at $6.50 to $6.70 per 10 kilos. Sheepskins are arriving in enormous quantities and prices are weak also.

Heavy arrivals of wheat are reported at the markets and prices are falling. This has induced exporters to re-enter the market and they are operating on a large scale.

The snag-up at the Plaza Constitucion is a source of much annoyance; and the complaints of consignatarios are loud and general, as they foresee a terrible squeeze during the busy season, worse than last year, to judge by the actual snag-up.

Auctioneer Olmi's rooms last night were crowded with the "elite" of our club men, who mustered in numbers to witness the sale of the late Colonel Parravicini's great collection of weapons. The popular auctioneer appeared to be possessed of a bellicose eloquence, as surrounded by cannon, rifles, revolvers, cuthasses, cutlasses, Japonese turn swords, etc., etc. he offered the articles for sale. Some of the weapons were of remarkable value, and amateurs gave as high as 310$ for some specimens. Over three hundred people were present, nearly all connoisseurs in the noble art of self-defence. Among the chief buyers we remarked Don Manuel Lainez, editor of our colleague *Diario*, Michael Dinneen, editor of the *Southern Cross*, engineer Cesar Gonzalez Segura, Messrs Casares, Gramajo, Lezica, E. J. Byrne, Torroba, Dr. Gutierrez, Dr. Moyano, Peña, Cernadas, Blanco, etc. The collection fetched 29,515$ m/n. Such was the enthusiasm of bidders as they competed for the revolvers of last century or the last generation, that many began to believe in the revolutionary rumors spread in the columns of the press.

Mr T. Clark Curtin of New York, the well known kerosene importer, was welcomed to-day on 'Change on his return from Europe and the United States.

The special committee appointed to draw up regulations for fisheries on the Southern Coasts have sent in their report to the National Government. The Committee advise that every fishing vessel be provided with an annual permit as follows:—

For National flag—Stamp of $25 for fluvial fishery; do. $100 for ocean fishery.

For foreign flags—Stamp of $35 for fluvial fishery; do. $200 for ocean fishery.

So-called ocean fishery includes sea lions, penguins, extraction of guano, etc. on the Patagonian coast.

The Minister of Finance issued orders to-day to pay the Compañia Sud Americana de Billetes de Banco 8,331$m/n for the printing of stamps and stamped paper during the month of August, for account of the Postmaster-General.

The Governor of Catamarca has sent a note to the National Government stating that the canalization works of the Arroyo Tala, which supplies water to the town of Catamarca, are suspended since the year 1890. The Governor hopes that the Minister of the Interior will issue the necessary instructions to complete the works.

The National Government informed Messrs. Bouvier and Co. to-day that they have complied with all the conditions of their colony concession in the territory of Formosa. It is not often that land concessionaires obtain this approval from the Government.

The silver coinage bill which has just passed the Montevidean Legislature has always an importance for this market, and we should not be surprised if, when the Saenz Peña Government comes in, some such measure was brought in to help us out of the paper money mess in which we are enveloped. The bill in Montevideo gives the silver coinage the following tariff or ratio for legal tenders for all debts—

From 1 to 25m/n 30 p. cent silver
" 25 to 100m/n 20 " " "
" 100 to 500m/n 10 " " "
" 500 to 5000m/n 5 " " "
" 5000 upwards 2 " " "

The silver to be coined in Montevideo, merchants admit, is altogether too much for what is termed "cambio menor", and hence it is that in large payments the commerce of Montevideo will lose heavily. One of the Deputies, a Mr. Ross, who, we believe is the son of an Irishman, made a very brilliant speech and shewed that he had been round to all the shops, factories etc. in Montevideo to find out the real practical working of the bill. Mr Ross obtained the cash balances from—

24 railway stations.
Tienda Inglesa.
Botica del Globo.
Telegrafo office.
Confiteria del Telegrafo.
Hotels Oriental and Barcelona.
Tienda Reosaco.
Paper warehouse Galli.

And many other retail stores; and from all these he discovered the following—

Three days' silver movement in those shops and offices:

	$	
First day for 1m/n Oriental gold..	1.79	Brazilian silver
Second day do do.	1.37	" "
Third day do do..	1.50	" "

And thus he discovered that in Montevideo they have for every gold dollar 1.55 silver, and as it is generally admitted that the stock of Oriental silver in the Montevidean market is 800,000m/n, clear it is that with the stock of Brazilian silver, 1,240,000, there are in circulation in the Banda Oriental $2.91 silver for every inhabitant in that most distressful country. The total silver circulation in the Banda Oriental is marked at 2,040,000 which is more than enough for all small change requirements. Mr. Ross makes up the following estimate—

Oriental silver in circulation..............	800,000
Issued to demonetize the Brazilians..........	1,240,000
Balance of amount to be coined..............	1,760,000
Total..............	3,800,000
Silver actually in circulation..............	2,040,000
Excess not required....	1,760,000

This statement of Mr. Ross has caused the greatest attention in Montevideo and merits the close study of this market also. Mr. Carve in the Senate opposed the bill and said that the coinage of 1½ million would be more than enough. The small circulation of the National Bank never at any time passed 2 millions, and he thought that the legal tender force of silver was excessive for the Montevidean market, and that the greater part of the coins would remain in the Treasury. To avoid this the Government should never pay out more than 450,000 per month which would all come back to it through the revenue offices. The railways, gas, trams and water companies would be greatly prejudiced by an excessive silver issue, as also all banks and large houses that had to remit in gold. Mr. Carve spoke very severely against the Government, and we certainly think with good reason, as the small gains to the Government in the coinage in no way correspond with the injuries which the bill would cause to the whole commerce of the Banda Oriental. Immersed as we all are here in our own affairs, few of us have time to consider this Montevidean silver bill, but the question will come home to us all sooner than we expect, as silver is on the new Government cards.

The greatest estancia auction in this market for some time is that advertised by Messrs. Bullrich and Co. for the 19th inst. The estancia is situated on the Western Railway in the partido of 9 de Julio, it covers an area of 35,000 hectares or say 14 square leagues, it runs up between two railway stations, one called the Guanaco and the other the Carlos Casares, which are distant 4 leagues from the land. The Estancia is not only well wire-fenced but subdivided into what you may call smaller estancias or potreros. The estancia house is perhaps one of the grandest in the camp with 'galpones' worthy of the Plaza Constitucion. The estancia is amply supplied with 'jagueles', 'norias,' 'bombas' and numerous 'bebederos.' It has also splendid 'potreros' of alfalfa, montes, orchards and everything essential to a grand estancia, which was originally formed some years ago by Mr. Carabassa, the Banker, who kept the establishment up regardless of expense and finally sold it to Vincent L. Casares, the present owner. The land, we believe, is more adapted to cattle than to sheep, the 'rodeos' are all mestizos Durhams and number 20,000. The mares are all mestizo Clydesdale, Percheron and Morgan, 4,000 in number. The sheep 'mestizas finas,' 6,000. Land, cattle and sheep are all to be sold, as the owner wants to liquidate the business. We doubt very much if we have many subscribers who are able to purchase the whole property as it stands, but the place will be sold in lots to suit buyers. The land is good black soil and more suited for agriculture than sheepfarming. Our old friend, the late Dr. Lausen, told us much about this property. Sr. Lausen's estancia is now a Jewish colony, and it is very probable that as the Jews have all the money, they will buy this place also. The auction takes place not on the land but in Mr. Bullrich's patio at 2 p.m.

The sale of 8,000 capons from the Dorrego estancia at 8$ is reported, Messrs. Sansinena, the buyers. 10,000 kilos of new wool in good condition have arrived in the South Market, and were sold immediately at 9.75, which the barraqueros consider a high price, but good wool coming in now is much looked for, to ship to Europe as sample.

With very much pleasure we report that N. S. and W. it has rained. In the Santa Fé colonies they have had two or three wet days, which may bring things round, but we have our doubts, as a son of an English gentleman in this market arrived last week from the Santa Fé colonies with the most gloomy news about the locusts. He says that the Banco de la Nacion will have to come forward and advance to every colonial family where the locusts have destroyed the crops at least 1,000$ to each family to keep them from starvation and enable them to get new seed for their farms; and if some such step is not adopted there will be famine in Santa Fé. To-day we had news of the locusts in Trenquelauquen.

Messrs. Bemberg and Co., shipped in two days in the La Plata Dock 34,000 bags of maize on board the steamer Centurion; this shows the splendid conveniences of that dock and is a veritable feat in loading cargo, since the loading of 10,000 bags in one day on board of a single vessel is a very stiff business, much more so however is that of the Centurion's cargo 34,000 bags in two days, which beats the record both here and in La Plata.

1,000 tons maize placed in San Nicolas sold at 6.30$.

1,000 bags of wheat French in Once at 9.25$.

1,200 barleta inferior, at 8.20.
200 do Francés, at 9.20.
150 do Tuzela at 8.80.

Messrs. Collet and Llambi have sold a piece of fine camp in Las Heras 393 hectares for 121$ the hectaree, amounting to $675,47 Buyer Mr. J. M Fernandez. The place is known as Santa Rosa; the price paid brings it out 302,500$ the league.

The La Plata passengers from Martin Garcia had a very hard time of it coming ashore on Friday. It was blowing very stiff, the river was very rough, and the little steamer was 4 hours in coming from Martin Garcia. The passengers were all sea-sick and drenched through and through. It is, indeed, very hard lines for passengers coming from Europe in the enjoyment of perfect health, no sickness whatever on board, and clean bill of health from Montevideo, to have to undergo all these quarantine afflictions.

The French steamer La Plata, which has been delayed owing to the quarantine, will sail on the 10th.

The passengers on board the Sirio were so numerous that the little quarantine steamer could not take them all off to Martin Garcia; therefore, the little steamer Doly came back to-day and took off the remainder.

News received to-day from Genoa announces the clearing of the steamer Cafaro with 1000 emigrants for Buenos Ayres; this a very unusually large number for this steamer to take, and shows the great pressure of emigrants from Italy to the Plate. We believe that according to advices received there are at present afloat and bound out for Buenos Ayres over 7000 emigrants, which represents the population of 7 small towns. We doubt very much if this country is prepared for so strong an immigration.

The steamer Wicklow was for 16 or 17 days kept outside in the roads and unable to enter for want of water, owing to the high river yesterday she was able to get into dock.

Our colleague *Diario* states that there is no foundation to the reported sale of the Terrason meat freezing factory for £50,000. Our colleague states that the factory is worth £200,000.

Affairs ruled very dull at the second ring; sixteen hundred ounces only were sold for Monday, the price closing at $53.30, same price as in the morning. Catalinas were slightly firmer. La Plata Cedulas continued weak.

The following is a summary of the business effected in stocks and shares at the second ring to-day:—

Ounces—
Oct. 10.... 1,600 at 53.20-30.
Patriotic Bonds—
Oct. 10.... 8,000 at 72.20-30.
Internal Bonds 1892—
Oct. 10.... 12,700 at 65.30-40.
Catalinas Moles—
Oct. 10.... 3,100 at 8.10-20-30-40-50.
Oct. 15.... 500 at 8.10-30.
Oct. 30.... 3,600 at 8.20-10-20-50-40-60.
Municipal Consols—
Oct. 10.... 10,000 at 58.00.
Provincial Hypothecary Cedulas—
Sep. 10..F 1,550 at 29.30.
Sep 10..G 1,400 at 29 30.
Sep. 10..K 8,000 at 29.80.
Oct. 10..M 6,500 at 29.80.
Oct 10..N 6,350 at 29.80.
Oct. 10..O 1,000 at 29.80.

Cheques of the Provincial Bank closed at 35½% discount and those of the National Bank at 17% discount. Bonos of La Plata Mortgage Bank were in demand at 17 to 17½% of their face value.

Payments on 'Change to-day were heavier than last Saturday, in spite of the reported dead lock in business owing to political alarm.

Immediately after the first ring an auction was called and the following stocks were sold:

5 Shares La Previsora Insurance Co. at 27
10 do. La Constructora Argentina at 14
10 do. Banco Comercial de la Plata at 9
50 do. Arenal Grande at 13.50
25 do. Cooperativa Telefonica at 13$ per share of 20$
100 do. La Edificadora at 74
6000 Cedulas F 29.30
5480 Bonos of La Plata Mortgage Bank at 17.10.

During the second fortnight in September 26 steamers and 13 sailing vessels were depatched from this port with the following produce:—

29,07, salted ox and cow and 8445 horse hides, 142,090 dry ox and cow and 6915 horse hides, 2766 calfskins, 2094 bales wool, 4800 do sheepskins, 199 bales hair, 340 bales corderitos skins, 214,268 bags maize. 117 242 do wheat, 29,533 do flour, 1201 do linseed, 2883 do linseed cake, 511 pipes and 100 boxes tallow, 15,089 bales jerked beef, 53.887 frozen sheep, 145,498 horns, 2,099,698 kilos bones and bone ash. 150 bls various skins, 454 live oxen, 356 bags horns, 150 cks glycerine, 150 bags hoofs, 90 bales hide cuttings, 61 bales goat skins, 524 bags ash, 12000 bags bran, 38 cases feathers, 1250 bales tobacco, 500 pks merch, 307 boxes tongues, 609 boxes beef, 522 bags bones, 555 barley, 213 do seeds, 444 do dried blood, 18500 bales hay. 130 deer, 350 boxes do kidneys, 4000 bags potatoes, 515 live sheep, 2317 bags powdered beef, 199 pks ipecacuana, 110 cks tripe, 479 pks minerals.

Don Patricio Ham has issued the following circular to his clients and friends in the camp:—

Buenos Ayres Oct. 7th, 1892.

Dear Sir,

Since we are now on the eve of the wool season I desire to offer a few suggestions respecting consignments. I would recommend that all produce from the Northern and Western districts be sent to the Central Market in Barracas, as the advantages afforded there are very great compared with those of Plaza Constitucion or Once de Setiembre. In the first place no charge is made for the first six days after the produce is unloaded, and then there is a small monthly charge much less than any private barraca; and in the second place there is an excellent opportunity of having the wool always to be seen without making special journeys to outside deposits as is necessary in other markets; and in the third place railway freights are less on produce from the North and West to the Central Market than to Constitucion.

As many people are in the habit of selling their wool by the arrobe there may be some who, perhaps, do not take into consideration the difference between that standard of weight and the 10 kilos, which is the recognized standard of weight for all sales made in the markets. An arrobe is equal to 25 lbs. while 10 kilos is less than 22 lbs., and the following figures give a few instances of the relations between the two systems:—

$ per 10 ks.		$ per arb.
5	is equal to	5.74
6	" " "	6.89
7	" " "	8 04
8	" " "	9.18
9	" " "	10.33
10	" " "	11.48

It is well that the wool be more or less classified: the fleeces got up in ordinary size and tied without undue pressure, and as far as possible not to have lambs' wool mixed with long wool. It is also important that, in special lots, belly wool be kept apart.

I have always on hand a large supply of lienzos, and should you require any, please let me know and I will send them without delay.

I also beg to offer my services in the purchase and sale of land, and in the sale of cattle and sheep both "al corte" and at the Corrales.

Judicial business both in Buenos Ayres and La Plata receives my particular attention and is executed under the guidance of first class lawyers.

Pagarés discounted and advances made on produce. Also discounts looked after both in the state and private banks.

I have the pleasure to be,
Dear Sir,
Yours truly.
Patricio Ham.

Messrs. Williams and Co., in their important local shipping circular, under date 1st inst., report as follows upon freights:—

Steamers—There is no improvement to report since our last issue. It has been impossible to effect charters, and parcel lots have taken from Rosario at 10s. per ton grain and from Buenos Aires or La Plata 7 to 8s. for Liverpool or Antwerp, are the current quotations. Several steamers have left in ballast for the United States cotton ports, while others have engaged cargo for Rio Janeiro at $2 50 grain and $2 hay. At the moment there is not much steam tonnage disposable, and should a demand spring up in the coming month an improvement in rates may be expected, as there is still a fair quantity of grain available for export.

Sailers—The majority of vessels are leaving in ballast, unable to find any remunerative employment in these waters. We have chartered a few to load sugar in Brazil for United States ports and others to bring lumber from Southern States ports to Buenos Aires. The movement hence to New York and Boston has shown a slight improvement, but hay freights to Brazil have been seriously interfered with by the number of steamers on the berth; for Rio $2.50 to $3 is still obtainable from Rosario to Santos. We subjoin a list of Charters effected during the month.

La Plata Port,
October 7th, 1892

La Plata advices report a good deal of movement in the Port on that day. During the morning early the following boats entered the Grand Dock:—

U. S. man-of-war Essex from Buenos Ayres.

S.s. Alfalfa, one of the F.C.S. boats, to complete her cargo for Europe. She takes maize for Messrs. Bunge and Born.

S.s. Horrox, of the Lamport and Holt Line, to coal at the La Plata Coal Depot before leaving for Europe.

French packet La Plata, Mensagerias Maritimas, with cargo from Bordeaux.

At the moles and deposits, Rio Santiago, the following boats entered:—

Italian s s. S. Gotardo to load maize for Bemberg and Co.

S.s. Soldier Prince, Houlder Bros. Line, to take live stock for Rio de Janeiro.

S.s. Bellagio, of the Lamport and Holt Line, and Ovingdean Grange, of Houlder Bros. Line, are awaiting the arrival of the animals which Messrs. Barros, Teixeira and Co. (who have the contract with the Municipality of Rio for the supply of 400 head cattle daily) are shipping for that port.

For the same firm on Sunday next are expected the Flamsteed, of Lamport and Holt Line, and s.s. Lucerne, of W. Samson and Co. Within the next few days in these 5 steamers no less than 2,400 fat novillos will be embarked.

We understand that, in addition to the 42 voyages already engaged for, two steamers have been chartered for 12 trips each. These boats are specially fitted for carrying cattle, having been engaged in the North Atlantic trade. They come out with fittings already installed, and have carrying capacity for 1,100 animals each.

Within the next week the Provincial Government will have cranes erected in the "bretes" at the head of the Grand Dock which the Ensenada Railway have facilitated pending the arrival of the hydraulic cranes from Germany, which Messrs. Puleston are expecting for Mr. Luther, the contractor with the Government for the hydraulic institution; and these "corrales" on the very edge of the Dock, which have up till now been utterly useless for want of cranes, will now offer great facilities for the embarkation of live stock. Moreover, the charges are less than any other port in the Republic, since vessels entering with the sole object of loading live stock pay only port dues according to the number of animals shipped—a franchise similar to that granted to boats entering for coaling only.

The Caja de Conversion burned to-day $161,073 in notes of the issue of Nov. 3rd 1887, Sept. 6th 1891, and Oct. 16th 1891, and $16,500 in fractionary notes of other issues.

Shipping News.

Oct. 8.

The wind was from E. N.-E. in the morning, and the river high, 22 feet. In the evening the wind chopped round to S.-E., and the river fell to 17 feet.

ARRIVALS.

The following vessels arrived in the Roads:—

Nor. bq Lipdisa from Montreal with lumber to George Bell.
Giacomo Papa from New York with general cargo.
Hindoostan from Rio in ballast.
Olive Thurlow from New York with general cargo to Shaw.
Lord Clyde with coal to Argentine Gas Co.
Pablo Sausat from Cadiz with salt.
Parsee from St. Thomas with lumber to Roberts.
Tapey from Rio with yerba.

ENTERED.

Garrick from Roads to load.
Flamsteed at La Plata to fill up.
Rio Parana from Salto.

DEPARTURES.

Saint Peter for Rosario to discharge.
Eolo for Montevideo.

The Highland Glen and Sirio could not enter the Madero port for want of water.

The Manin arrived at Montevideo to-day from Liverpool with 1600 tons of general cargo, and Falkemburg from Bremen with general cargo.

The La Plata will leave on Monday, also Rio Negro for Europe on 12th.

Mails.

Oct 12.

Rio Negro for B. and Europe at 12
America for Europe at 12.

HAIL STORMS.

Everyone who has grain of any kind growing realizes the damage that may be done in a moment by a hail storm, and can avoid any risk by taking a policy with the La Porteña Insurance Co.

Our rates are very low, and we also accept notes in payment, payable at the end of the season, which is equivalent to furnishing capital to Agriculturists.

This is the only Company with either backbone or money that has, up to date, done any of this business, and the list of losses paid as well as a statement of the present financial standing of the Company can be had on application at our offices

IMPORTANT
TO SHEEP-FARMERS!!!
THORNCLIFFE
SHEEP DIP

TRADE MARK
ACARICIDE.

We the undersigned, hereby bear testimony to having witnessed the dipping trials made with the above dip on two flocks of sheep badly infected with scab, at Mr. Patricio Ham's Estancia "Santa Margarita" (Capitan Sarmiento F. C. C. A.), on the dates of May 21st and June 13th 1892.

The dip was mixed in the proportions of one part of dip to forty parts of cold water.—The Sheep and lambs alike were passed through the bath, and we noted that not one single case of poisoning occurred, nor were the sheep uneasy afterwards, proving that the dip contains no poisonous or burning properties.—At the end of June we testify to having examined these sheep and found them **absolutely cured of scab with only once dipping.** We noticed also that they had improved remarkably in condition and that the wool shewed no signs of discolourment. We have every confidence in recommending the **"Thorncliffe Sheep Dip"** as one of the safest and most effective dips that has ever come under our notice.

Partido of Arrecifes, July 1892.

A LOS HACENDADOS Y á nuestra clientela

Animados por el favor y la confianza que los hacendados y el publico en general dispensa a esta casa, obligandole mas vasta esfera de accion y deseando corresponder a sus exigencias, nos es grato comunicarle que desde la fecha hemos incorporado a nuestra casa de remates y comisiones las consignaciones de frutos del pais y cereales los que recibiremos a comision para vender en los mercados Central de Frutos, Constitucion y Once en las mismas condiciones que los demas consignatarios.

Semanalmente remitiremos a nuestros comitentes una revista de precios corrientes con fieles apreciaciones sobre el estado de la plaza.

Cuando los criadores o nuestros clientes lo pidan venderemos sus frutos en remate previo anuncio, lo que ofrecera la indiscutible ventaja de dar nombre y fama a los establecimientos productores, cuyos frutos con rarisimas excepciones se venden actualmente sin saberse en nuestra plaza y menos en Europa el establecimiento que los ha producido.

La venta en remate ofrece por otra parte en nuestro mercado mayores facilidades que en los del Havre, Londres y Amberes, porque aqui los compradores pueden apreciar mejor todo lo que compran, examinando el articulo sin enfardelar.

La distancia a que se encuentran nuestros mercados uno del otro y la circunstancia de hacerse los negocios simultaneamente en los tres, tiene el inconveniente de distribuir los compradores alejando la competencia, y el remate subsana esta dificultad, porque como se anuncia previamente, permite a los interesados congregarse a una hora fija en el mercado donde ha de efectuarse la venta, estimulando el exito de las operaciones la competencia de los licitadores.

Para vender frutos en remate, sera necesario que asi se nos ordene expresamente, de lo contrario venderemos a estilo de plaza.

Esperando merecer en este ramo la misma confianza que en las otras comisiones, nos es grato repetirnos sus atts. y S. S

Adolfo Bullrich y Cia.

A. Bullrich y Cia.

GRANDIOSO REMATE

Campo y Haciendas

El importante Establecimiento "La Esperanza" en el 9 de Julio compuesto de 35000 hectareas de campo superior. Lo mejor del Oeste. A solo 4 leguas de la Estacion Guanaco y 5 de la de Carlos Casares.

HORSFORDS PHOSPHATIC BAKING POWDER

BARON LIEBIG, the world-renowned chemist said, "I have though a great series of experiments, satisfied myself of the purity and excellence of your preparation. The bread has no acid, is easily digested, and of the best taste. Aside from the conveniences this invaluable idea of yours has provided, I consider this invention as one of the most useful gifts which science has made to mankind! It is certain that the nutritive value of the flour will be increased 10 per cent by your invention, and the result is precisely the same as if the fertility of our wheatfields had been increased by that amount.

What a wonderful result is this!"
